ARTICLES

Ken Cullings Reassessment of phylogenetic relationships of some members of the Monotropoideae based on partial 28S ribosomal RNA gene sequencing 1

Kim S. Jones, Bryan D. McKersie, and John Paroschy Prevention of ice propagation by permeability barriers in bud axes of *Vitis vinifera* 3

E. Jażdżewska, Z. Sadoch, A. Niklas, and A. Majewska-Sawka Plant regeneration from sugar beet leaf protoplasts: analysis of shoots by DNA fingerprinting and restriction fragment length polymorphism 10

Murray B. Hay, Neal Michelutti, and John P. Smol Ecological patterns of diatom assemblages from Mackenzie Delta lakes, Northwest Territories, Canada 19

Luc St-Laurent, Bernard R. Baum, Koffi Akpagana, and John T. Arnason Leaf trichome morphology and density in West African *Trema* spp. (Ulmaceae: Celtidoideae) 34

Gilles Houle and Annie Belleau The effects of drought and waterlogging conditions on the performance of an endemic annual plant, *Aster laurentianus* 40

Eeva-Stiina Tuittila, Hannu Rita, Harri Vasander, and Jukka Laine Vegetation patterns around *Eriophorum vaginatum* L. tussocks in a cut-away peatland in southern Finland 47

Frederick J. Ryan and Debra R. Ayres Molecular markers indicate two cryptic, genetically divergent populations of Russian thistle (*Salsola tragus*) in California 59

Roger Médard Relations entre longueur des pétioles et longueur des entre-noeuds chez *Manihot esculenta* Crantz clones Pétiolules : la formation d'entre-noeuds courts est liée à l'accélération de la surrection foliaire 68

Eric Nicolini Nouvelles observations sur la morphologie des unités de croissance du hêtre (*Fagus sylvatica* L.). Symétrie des pousses, reflet de la vigueur des arbres 77

Bart Van de Vijver and Louis Beyens Chrysophycean stomatocysts from freshwater habitats of the Strømness Bay area, South Georgia, Antarctica 88

Cristina Gimeno and Vicente I. Deltoro Sulphur dioxide effects on cell structure and photosynthetic performance in the liverwort *Frullania dilatata* 98

Mozaffar W. Hassan and Edward J. Catapane Physiology of two monocentric chytrids: comparative nutritional studies of *Entophlyctis* sp. and *Entophlyctis aureus* (Chytridiales) 105

W.L Strong Vegetation development on reclaimed lands in the Coal Valley Mine of western Alberta, Canada 110

Alan W. Bown and Guijin Zhang Mechanical stimulation, 4-aminobutyric acid (GABA) synthesis, and growth inhibition in soybean hypocotyl tissue 119

NOTES

Georg Hausner, Abbes Belkhiri, and Glen R. Klassen Phylogenetic analysis of the small subunit ribosomal RNA gene of the hyphochytrid *Rhizidiomyces apophysatus* 124

Bill Chapman and G. Xiao Inoculation of stumps with *Hypholoma fasciculare* as a possible means to control armillaria root disease 129

Instructions to authors I-1
